

**AZCOFLEX**

Not classified as hazardous according to the criteria of Worksafe Australia.

**Identification**

Name: Duram Azcoflex  
Other: Water based acrylic waterproofing membrane.

**Product Code**

UN Number	None Allocated
Dangerous Class	None Allocated
Hazchem	None Allocated
DG Class	None Allocated
Packing Group	None Allocated
Poisons Schedule	None Allocated
Product Use	Primer & sealer coating

**Physical Data / Properties**

Appearance	Whitish viscous liquid coating
Boiling/ Melting Point	Not known but approximates water.
Specific Gravity	± 1.2
Flash Point	Not flammable
Flammability Limits	Not applicable
Solubility in water	Resin component ± 40 is insoluble. Fillers, pigments are miscible.
Volatile %	< 35% water
Odour	Faint aromatic
Stability	Stable
Haz. Polymerisation	Will not occur by itself

**Ingredients**

Chemical	CAS No.	Proportion
Butyl acrylate - styrene copolymer	Proprietary	40 - 60%
Water	7732-18-5	20 - 30%
Fillers, pigments & unspecified minor ingredients		40 - 60%

**Health Hazard Information****Health Effects**

Acute Swallowed:  
Single oral dose adverse effects not expected. May cause nausea and vomiting.

Acute Eye:  
Avoid eye contact – mild to moderate irritation.

Acute Skin:  
Avoid contact – mild irritation.

Acute Inhaled:  
Unlikely because of viscous nature of product. Inhalation overexposure not anticipated but may cause irritation. Chronic Effects not known.

**First Aid**

Swallowed:  
Do not induce vomiting. Give plenty water to drink and seek immediate medical attention.

Eye:  
Immediately thoroughly flush eye with clean water and seek medical attention.

Skin:  
Remove contaminated clothing, wash with soap & water. Do not use solvents to remove material.

Inhaled:  
Remove person to fresh air. Seek immediate medical attention.

First Aid facilities:  
Eye wash fountain and shower.

**Advice To Doctor**

Treat symptomatically

**Other Health Information**

Toxicity data indicates that the product is not harmful to health provided the product is used correctly. No LD50

tests are available.

**Precautions For Use & Engineering Controls**

Exposure limits not established. Good ventilation is required.

**Personal Protection**

The use of rubber gloves, safety boots and goggles (against splashes) is recommended.

**Flammability**

Water based.

**Safe Handling****Storage And Transport**

Store in cool, dry area in sealed containers. Not classified as dangerous goods.

**Spills And Disposal**

Soak up material with absorbent material such as sand and collect in suitable containers. Prevent product from reaching drains. Dispose in accordance with accredited waste disposal authorities by incineration or to landfill.

**Fire / Explosion Hazard**

Product should not decompose explosively. Extinguishing media is water, CO<sub>2</sub>, foam or dry powder.

**Other Information**

Handle in accordance with good industrial hygiene and safety practice

**Packaging**

4, 15 and 20 Litre containers

**Contact**
