Carbon dioxide, water fog, foam or dry powder.

HAZARDS FROM COMBUSTION PRODUCTS:

Combustion may release toxic fumes, including carbon dioxide, carbon monoxide, and hydrocarbons. Take appropriate protective measures to avoid inhalation.

SPECIAL PROTECTIVE PRECAUTIONS AND EQUIPMENT FOR FIRE FIGHTERS:

Fire fighters should wear self contained breathing apparatus if risk of exposure to vapour or products of combustion. Avoid bodily contact with substance or run off.

Section 6 – Accidental Release Measures

EMERGENCY PROCEDURES:

In the event of a major spill, prevent material from entering storm water drains, waterways, basements or workpits. Wear gloves, protective goggles and appropriate protective equipment to avoid eye and skin contact. If significant chance of vapours or mist building up the use of a respirator is recommended, however in most cases this will not be necessary. Isolate and contain spill and soak up with inert material such as clay or sand. Collect in suitable containers and ensure these are correctly labelled.

METHODS AND MATERIALS FOR CONTAINMENT AND CLEAN UP:

Contain and collect spills as detailed above. Refer to State Land Waste Management Authority for disposal considerations.

Section 7 – Handling and Storage

PRECAUTIONS FOR SAFE HANDLING:

Suitable protective clothing, PVC gloves and boots should be worn. General exhaust is normally adequate, however if risk of overexposure exists, wear approved respirator. See Section 8 for advice on Australian Standard for protective equipment.
